NOTE: Recordings of program content include video or audio recordings created by a library staff person (or other party sponsored by the library) and posted to a video or audio hosting platform for the audience to view or listen to on-demand. Do not include promotional or marketing content.

08-050 *Number of virtual - recorded programs* - This is virtual recorded children's sponsored by the library. Count each program which is posted online, whether anyone views it or not. If virtual - recorded programs are offered in a series, count each program in the series.

08-051 *Number of page views/hits on virtual programs - recorded* - This is the total number of page views/hits on all virtual programs - recorded that were posted online during 2020.

NOTE: When counting hits on virtual programs - recorded, please count for either as long as the video is posted, OR until the end of the calendar year (Dec 31, 2020) - whichever is sooner.

Children's Reading Program

08-052 *How many weeks of a Children's Reading Program did your library offer at each fixed location?* - This is the total number of weeks that your library offers a Children's Reading Program at each fixed location. Public Library standards require a minimum of 6 weeks per year. The weeks do not have to be consecutive. This is information required by PL Standards, 590 IAC 6-1-5 (o). Standards will be automatically waived for 2020.

08-053 *Total number of annual visits to the library* - Report the total number of persons entering the library for whatever purpose during the year. If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week (see note below) and multiplying the count by 52 - or however many weeks the library was open during the reporting year. Include persons attending activities, meetings, and those persons requiring no staff services. Include all people entering for any reason, even those entering and leaving multiple times within one day. Be sure to include numbers from branches and bookmobiles. (Required by PLS.)

Note: A typical week is defined as a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).

08-053a *Library visits reporting method* - Regarding the number of library visits entered, is this an annual count or an estimate based on a typical week or weeks?

Select one of the following:

Count - Annual Count

Estimate - Annual Estimate Based on Typical Week(s).

Select NA only if you have no way of estimating the number of library visits for the year.

(Required by PLS.)

08-054 *Total number of reference transactions per year* - Reference transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use information resources to help others to meet particular information needs.

Reference transactions do not include formal instruction or exchanges that provide assistance with locations, schedules, equipment, supplies, or policy statements.

NOTES:

(1) A reference transaction includes information and referral service, unscheduled individual instruction and assistance in using information sources (including web sites and computer-assisted instruction).

(2) Count readers advisory questions as reference transactions.

(3) Information sources include (a) printed and non-printed material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library.

(4) When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

(5) If a contact includes both reference and directional services, it should be reported as one reference transaction.

(6) Duration should not be an element in determining whether a transaction is a reference transaction.

(7) It is essential that libraries do not include transactions involving only a directional service, such as instruction for locating staff, library users, or physical features within the library. Examples of directional transactions include, "Where is the reference librarian? Where is Susan Smith? Where is the rest room? Where are the 600s? Can you help me make a photocopy?"

Annual Count vs. Annual Estimate

If an annual count of reference transactions is unavailable, count reference

transactions during a typical week or weeks, and multiply the count to represent an annual estimate. [If the sample is done four times a year, multiply totals by 13, if done twice a year multiply by 26, if done only annually, multiply by 52. If the library was closed multiple weeks, only estimate for the number of weeks open.]

A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or library. The chosen week should be one in which the library is open its regular hours.

08-054a *Reference transactions reporting method* - Regarding the number of reference transactions entered, is this an annual count or an estimate based on a typical week or weeks?

Select one of the following:

Count - Annual Count

Estimate - Annual Estimate Based on Typical Week(s).

(Required by PLS.)

08-055 *Instructional reference services* - This number is a subset of and should also be included in the total number of reference transactions (08-034). It should be entered here only if your library keeps a separate count for this sort of activity. If you do not track this number independent of all other reference transactions, enter NA.

Instructional reference services include one-on-one interactions that are considered reference transactions by the national definition, but are typically far more time consuming and involved than traditional reference transactions. This is meant to capture more involved instruction, and not simple one-off questions such as turning on a device, finding an icon, etc. They may be scheduled in advance or drop-in consultations. Examples include help on small device use (e-readers, smartphones), computer instruction, resume help, and proctoring.

Electronic Collections (includes Licensed Databases)

Report the number of licensed electronic collections (or databases).

An electronic collection is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts, photographs, music, video, etc.) with a common user interface and software for the retrieval and use of the data. An electronic collection may be organized, curated and electronically shared by the library, or rights may be provided by a third party vendor. An electronic collection may be funded by the library, or provided through cooperative agreement with other libraries, or through the State Library. Do not include electronic collections that are provided by third parties and freely linked to on the web.

Electronic Collections do not have a circulation period and may be retained by the patron. Remote access to the collection may or may not require authentication. Unit records may or may not be included in the library's catalog; the library may or may not select individual titles. Include electronic collections that are available online or are locally hosted in the library.

Note: The data or records are usually collected with a particular intent and relate to a defined topic.

Report the number of electronic collections acquired through curation, payment or formal agreement, by source of access:

08-056 Number of state licensed databases (INSPIRE databases) - This number will be prefilled by the Indiana State Library.

08-057 *Number of local and other licensed databases (not INSPIRE) - Report the number of licensed electronic collections/databases (include locally hosted or remote, full-text or not) for which temporary or permanent access rights have been acquired through payment by the library (local), or a cooperative agreement within the state or region (other), whether purchased, leased, licensed, or donated as gifts. Do not include INSPIRE databases.*

A database is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts) with a common user interface and software for the retrieval and use of the data. Each database is counted individually even if access to several databases is supported through the same vendor interface. This is information required by PL Standards, 590 IAC 6-1-2 (5) (D).

08-058 *Name(s) of public use/commercial databases to which the library subscribes* - List the names of all public use databases to which the library subscribes. Use the official name as published by the vendor. Do NOT include library process databases, like *Follett Circulation Plus*, *CONTENTdm*, *B & T Title Source*, etc. (unless it is available for the public to use). The purchase of these databases counts towards the collection development standard.

08-059 *Total electronic collections* - Sum of 08-056 and 08-057. This total is automatically computed. (Required by PLS.)

Public Computers

08-060 *Number of public internet computer uses per year* - Report the total number of uses (sessions) of the library's public internet computers during the last year. Sign-up forms or Web-log tracking software also may provide a reliable count of uses (sessions).

Note: This count includes only the library's internet computers.

- (1) Do NOT include Wi-Fi access using nonlibrary computers or electronic devices.
- (2) Count each use for public internet computers, regardless of the amount of time spent on the computer.
- (3) If the data element is collected as a weekly figure, multiply that figure by 52 (or however many weeks the library was open during the reporting year) to annualize it.
- (4) Be sure to include numbers from branches and bookmobiles.

You may use a typical week count (see below), and then multiply by the number of weeks the library was open.

Typical Week - A typical week is defined as a time that is neither unusually busy nor unusually slow. Holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or library should be avoided. A week in which the library is open its regular hours is chosen. Seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open in a seven day period) are chosen.

- 08-061 Number of wireless internet uses per year - Report the number of wireless sessions provided by the library wireless service annually.
- 08-062 *Number of public internet computers, system-wide - Report the number of the library's internet computers (PCs and laptops), whether purchased, leased, or donated, used by the general public in the library. Count computers at the central library, branches and bookmobiles. Count only physical computers, not wireless connections. This is information required by PL Standards, 590 IAC 6-1-5 (u). (Required by PLS.)***
- 08-063 *Number of staff computers - Count all computers used by staff equipped with office software at the central library, branches and bookmobiles.***
- 08-064 *Number of website visits - Visits represent the annual number of sessions initiated by all users from inside or outside the library to the library website. The library website consists of all webpages under the library's domain. A website "visit" or "session" occurs when a user connects to the library's website for any length of time or purpose, regardless of the number of pages or elements viewed. Usage of library social media accounts (e.g., Facebook, Twitter, etc.) should not be reported here.***

Library System Automation

- 08-065 *Does your library have an automated bookkeeping system? - Answer YES or NO .*
- 08-066 *Name of bookkeeping system - Please enter the full, official name of the automated bookkeeping system you use, or enter "N/A" if your system is not automated. The*

State Board of Accounts does not approve the system, just the forms generated by the system.

- 08-067** ***Brand and version of Integrated Library System (ILS)* - Please enter the full, official name of the integrated library system your library uses, or enter "N/A" if your library is not automated. This is information required by PL Standards, 590 IAC 6-1-5 (s).**

Part 9 - Circulation and Holdings

Questions relating to standards are in bolded blue font.

Grayed boxes are either prefilled (and sometimes locked) or are automatic calculations.

- 09-001 *Circulation of physical items* - The total annual circulation of **physical** library materials of all types, including renewals. Count all physical materials in all formats that are charged out for use outside the library. Only include interlibrary loan transactions in which items are borrowed for users. Do not include items checked out to another library.
- 09-002 *Use of electronic materials (e.g. e-books circulated or electronic materials downloaded annually)* - Electronic materials are distributed digitally online and can be accessed via a computer, the internet, or a portable device such as an e-book reader. Types of electronic materials include e-books and downloadable electronic video and audio files. Electronic materials packaged together as a unit and checked out as a unit are counted as one use. **Include circulation only for items that require a user authentication, and have a limited period of use.**
- Note: Do not include database/electronic collection usage as circulation. Report these uses in 09-003.
- 09-003 *Successful retrieval of electronic information* - The number of full-content units or descriptive records examined, downloaded, or otherwise supplied to user, from online library resources that require library user authentication but **do not have a circulation period**. Examining documents is defined as having the full text of a digital document or electronic resource downloaded or fully displayed. Some electronic services do not require downloading, as simply viewing documents is normally sufficient for user needs.

Include use both inside and outside the library. Do not include use of the OPAC or website [based on NISO Standard Z39.7 (2013) #7.7, p. 43]. (Required by PLS.)

This electronic material usage or views not meeting the definition of circulation and not otherwise reported in 09-002.

If you are unable to provide a number, enter "N/A". If you do not provide electronic, enter "0".

Rationale: This element is designed to capture the use of online content provided by libraries, but not requiring a traditional circulation. Primarily, this element will capture the use of paid, commercial databases.

- 09-004 Total electronic content use - Sum of 09-002 (use of electronic materials) and 09-003 (successful retrieval of electronic information). This total is automatically computed. (Required by PLS.)
- 09-005 *Circulation of all children's materials* - The total annual circulation of all children's materials in all formats to all users, including renewals and interlibrary loans. Enter the circulation for materials cataloged as appropriate for children. Include juvenile electronic materials (e-book/e-audio/e-video) uses if the data is available.
This is a subset of total circulation of all materials listed above. Estimates are acceptable. (Required by PLS.)
- Do NOT include young adult materials in this count.
 - Do NOT include computer usage or in-house usage of materials.
- 09-006 *Total circulation of all materials* - Sum of 09-001 and 09-002. This total is automatically computed. Include all materials (print and non-print) charged out to patrons (or staff) of all ages, either manually or electronically. This figure includes all renewals and interlibrary loans (i.e. - items borrowed by your library and lent to your patrons). For electronic circulation, one download equals one circulation, whether it is one book or one song.
- Do NOT include equipment, computer usage or in-house usage of materials.
 - In-house usage is reported in 09-008 ONLY. (Required by PLS.)
- 09-007 *Total collection use* - This is the sum of 09-001 (physical item circulation), 09-002 (use of electronic material) and 09-003 (successful retrieval of electronic information). This total is automatically computed. (Required by PLS.)
- 09-008 *Total in-house usage of materials* - Count all materials used in the library but not checked out, including materials not allowed to circulate or be removed from the library. This may include materials used by staff for library purposes (programs, collection development), genealogical or local history materials, reference and circulating materials used by patrons in the library which staff re-shelves. Estimates are acceptable. You can take a typical week count, and then multiply by 52 (or the number of weeks the library was open in the reporting year).
- Do NOT add this figure into the circulation count.
 - Do NOT include equipment or computer usage.

Selected Holdings

The following totals are NOT a count of ALL materials which the library owns. These questions relate to selected holdings only.

Under this category report only items that have been purchased, leased, or licensed by the

library, a consortium, the state library, a donor, or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

DEFINITIONS

- Physical unit - A physical unit is a book volume, reel, disk, cassette, etc. Items which are packaged together as a unit and are generally checked out as a unit (e.g. a music CD that came packaged with two compact discs in one case) are counted as one physical unit.
- Holdings – Materials the library has acquired as part of the collection and catalogued, whether purchased, leased, or donated as gifts.
- Do NOT count any microfilm/microfiche/microforms except for current serial subscriptions. ONLY count any realia (puzzles, puppets, toys, cake pans, etc.) in 09-025.

BOOKS (PRINT)

09-009 *Books (print)* - Non-serial printed publications (including scores or other bound forms of printed music and maps) that are bound in hard or soft covers, or in loose-leaf format. Do not include unbound sheet music. Include non-serial government documents.

Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Books packaged together as a unit (e.g., a 2-volume set) and checked out as a unit are counted as one physical unit.

E-BOOKS

- If the library does not belong to an e-book consortium, enter "0" in question 09-013.
- If the library has no local holdings outside of the consortium, enter "0" in question 09-012.
- All consortium member libraries should record the total number of consortium titles available to their patrons (as of 12/31/2020) under question 09-013. If you are unsure of how many titles are available within your consortium, please contact your consortium administrator.

09-010 *Does the library belong to an e-book consortium?* - Answer YES or NO. An e-book consortium is a group of libraries with a shared licensing agreement that provides them with cost savings and/or increased quantities of titles.

09-011 *Name of e-book consortium* - If 09-010 is YES, list the name of the e-book consortium here (e.g. eIndiana Digital Consortium).

09-012 *E-books (LOCAL HOLDINGS)* - E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book (monograph). Include non-serial government documents. E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time. Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired.

Report the number of electronic units, including duplicates, at the administrative entity level; do not duplicate unit count for each branch. For smaller libraries, if volume data are not available, the number of titles may be counted. E-books packaged together as a unit (e.g., multiple titles on a single e-book reader) and checked out as a unit are counted as one unit.

Report the number of units. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

NOTE: For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired (equivalent to purchasing multiple copies of a single title). For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units". For smaller libraries, if volume data are not available, the number of titles may be counted.

Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 "units".

09-013 *E-books (CONSORTIUM HOLDINGS)*- E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent,

and which can be seen in analogy to a printed book (monograph). Include non-serial government documents. E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time.

Only include consortium or remote e-books for which permanent or temporary access rights have been acquired.

Report the number of electronic units, including duplicates, at the administrative entity level; do not duplicate unit count for each branch. For smaller libraries, if volume data are not available, the number of titles may be counted. E-books packaged together as a unit (e.g., multiple titles on a single e-book reader) and checked out as a unit are counted as one unit.

Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use.

09-014 *E-books (TOTAL)* - Sum of 09-012 and 09-013. This total is automatically computed. (Required by PLS.)

VIDEOS AND DOWNLOADABLE VIDEO

09-015 *Video materials, physical units* - Enter the number of materials circulated in a fixed, physical format on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a

television receiver or computer monitor. Video formats may include tape, DVD and CD-ROM. Do not include downloadable electronic video files.

Report the number of units, including duplicates. Items packaged together as a unit (e.g., two DVDs for one movie) and checked out as a unit are counted as one physical unit.

09-016 *Video materials, downloadable units (LOCAL HOLDINGS)* - Enter the number of downloadable electronic files on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver, computer monitor or video-enabled mobile device. Video – Downloadable Units may be loaned to users on portable devices or by transmitting the contents to the user's personal computer for a limited time. Include Video – Downloadable Units held locally and remote Video – Downloadable Units for which permanent or temporary access rights have been acquired.

Report the number of units. Report only items that have been purchased, leased or licensed **locally** by the library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. NOTE: For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired (equivalent to purchasing multiple copies of a single title). For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units". For smaller libraries, if volume data are not available, the number of titles may be counted.

Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 "units".

Part 12 - PLAC Loans

Questions relating to standards are in bolded blue font.

Grayed boxes are either prefilled (and sometimes locked) or are automatic calculations.

Complete the report for PLAC loans your library made to patrons from other libraries from January 1 through December 31 of the report year. Enter the number of items lent to patrons using a PLAC card. The number of loans must be an accurate count of PLAC activity. Estimates may not be used. PLAC information will be prefilled for Evergreen libraries mid-January.

- Do NOT include any miscellaneous or out of state loans as PLAC loans.
- Do NOT include any reciprocal borrowing (RB) loans as PLAC loans.
- Do NOT report any loans made to your own library.

- 12-001 *Did your library make any PLAC loans?* - Answer *YES* or *NO*. If you did not loan any materials to PLAC patrons from other libraries, your total in 12-238 will be zero.

Enter the number of materials lent to PLAC holders from each of the following libraries in 12-002 through 12-237. DO NOT report any loans made to your own library. You may SKIP any libraries with no loans; you do not need to enter "0."

DEFINITION: The home library is the PLAC card holder's library which their property tax supports or where they purchased a non-resident card.

- The reporting library should show no PLAC loans, as its residents do not need a PLAC card for loans. There should be no entry next to your library's name.
- List the total number of loans from each home library. Be sure to include bookmobile library totals in the home library's total.

For example, a patron from Adams County Public Library uses a PLAC card at the Wells County Public Library to borrow 10 items. Wells County Public Library would report 10 loans to Adams County Public Library.
